## Company Profile

### Background/Aspiration

Since 1993, we have been dedicated wholeheartedly in the field of architectural ceramics, with a focus on the research and development, design and production of ceramic tiles and clay bricks. With 3 decades of experience and expertise, Artsum pools together the wisdom of the previous generation of ceramists and remain devoted to the creation and refinement of artistic ceramic.

Fujian was and still is an important production base of architectural ceramics in China, especially exterior ceramic tiles. Not only does Fujian boasts rich and high quality of kaolin and the techniques of brick-firing that have been passed down through the centuries, but more importantly, local companies build on the strength of time-honored heritage and tradition while constantly learning from international advanced techniques and methods. Consequently, they enjoy regional advantage of creating brand new and unique art ceramic tile products.

From the round kiln, tunnel kiln, roller kiln and generations of production equipment innovation, from a single plain-surface tiles to the personalized art tile design and production, from simple imitation to the ultimate extension of product specifications, and then to the independent creation of shapes, patterns, colors, glaze, two generations of ceramists have remained dedicated to our aspiration, forging ahead with great commitment.

## 公司介绍

### 背景/初心

从1993年开始，我们就一直在建筑陶瓷领域深根细作，专注于研发、设计和生产瓷砖、陶砖产品。三十年的技艺积累和沉淀，凝聚了老一辈陶瓷人的智慧结晶，也使得雅山能够站在更高的起点，投入到艺术陶瓷砖的创作中，不断地实现产品进化。

福建过去和现在都是中国建筑陶瓷的一个重要产地，特别是建筑外墙陶瓷砖。福建不仅拥有丰富优质的高岭土资源和过去几个世纪薪火相传的烧砖技艺，更重要的是本地企业在立足于历史的优秀传承的同时也在不断地学习借鉴国际上先进的技艺方法，因而具备了开创新颖独特的艺术陶瓷砖产品的区域优势。

从圆窑，隧道窑，辊道窑等一代代生产设备的更新，从单一的素面砖再到如今个性化的艺术砖设计与生产，从简单的模仿到对产品规格的极限延伸，再到形状纹路、颜色釉料上的独立创作，我们家族两辈陶瓷人一直兢兢业业，一路砥砺前行。

NO: RGB02 Size: 600x1200mm

雅山现代仿古砖在吸水率、硬度、耐磨程度、防滑系数等比传统的仿古砖有了进一步的提升,其运用场景范围从住宅延续到更多的商业建筑空间。特别是当运用场景需要达到R12甚至R13的防滑系数时,我们可以通过添加干粉,粗颗粒等工艺来达到应用需求。

Artsum' antique tile witnesses further improvement in terms of its water absorption rate, hardness, wear resistance, anti-slip coefficient, outperforming the traditional antique tiles. Thus, its application scenario can extend from residential space to various types of commercial building space. When the application scenario requires the slip resistance up to R12 or even R13, dry powders, coarse particles and other processes can be adopted to meet such requirements.

雅山秉承着“设计源于自然”的理念，臻选全球名贵石材花色以及砂岩、金属等肌理，逼真还原，质感细腻，表面可实现亮光、哑光、磨砂、光滑等效果，且不断开展原创设计，使之具有高度美感和使用价值。

Following the concept of "design originates from nature", Artsum selects the world's most premium stones with various colors and patterns, renders the fine texture of sandstone and metal texture vividly. Through constant efforts and original design, Artsum's product surface can achieve bright, matte, frosted, smooth and other visual effects, integrating a wonderful sense of beauty with great functionality.

.....

With a wide range of products available, Artsum's subway tile, as a type of classic product, continues to expand the scope of application in space design. Whether used alone or in combination with encaustic tiles, wooden tiles or other single-color tiles, a stylish home can be achieved in an easy manner. Based on the degree of gloss, Artsum's subway tiles can be divided into matte and glossy finish, which can make small spaces such as kitchens, bathrooms and balconies more spacious and brighter with a richer sense of design.
